Subject:  
Letter of Recommendation

To whom it may concerns

Company DANIELI CORUS BV located in The Netherlands, Rooswijkweg 291, 1951 ME Velsen-Noord, has established since 2016 a strong and reliable working relationship with company CRIOMECC SA Galati.

As DANIELI CORUS BV is a company specialized in iron and steel industry, we founded in CRIOMECC SA a valuable contractor and partner for our projects. Over the last years we have contracted with CRIOMECC SA various projects consisting mainly from:

- detail engineering and planning;
- materials purchasing;
- mechanical works;
- piping and steel structure prefabrication;
- piping and steel structure erection;
- pressure test;
- commissioning support;
- heavy lifts;
- equipment fabrication.

Specific for the projects that involved CRIOMECC SA was time pressure as most of contracts regarded shutdowns / turnarounds of ironmaking equipment (blast furnaces, hot stoves, steel convertors).

We recommend CRIOMECC SA as a highly reliable company, with strong capacity to mobilize under pressure while keeping SAFETY and QUALITY as primary target. As the company is fairly big (over 500 employees), flexibility and responsiveness is at high level, all challenges are managed in an appropriate manner.

Yours faithfully,  
DANIELI CORUS BV

Jaco Baars
