9th September 2019

To whom it may concern.

CRIO MEC SA Romania has been employed by ASEE Ltd between May 2015 and July 2017 to act as Mechanical and Piping Contractor for our construction site in Eemshaven, Netherlands.

Brief description of CRIO MEC SA scope of works as engaged at Eemshaven:

- piping material procurement;
- piping prefabrication;
- piping, valves, pipe supports erection;
- painting and insulation of pipe network;
- equipment erection (diesel motors and electrical generators) including alignment.

From the Safety point of view I can recommend CRIO MEC SA for good safety behaviour on site and for a good and solid safety culture at the level of company management.

Regarding Quality, CRIO MEC SA is capable to deliver strong quality according relevant EN requirements and to perform at high level according industry best practice.

I recommend CRIO MEC SA as a capable contractor for any industrial project, based on their competencies in welding, piping, equipment erection and the use of access equipment.

Sincerely

Richard Robinson

Contracts Manager
